DEPI GRADUATION PROJECT PLAN

GUARDIANS OF EGYPT

An Integrated Digital Marketing Strategy for Tourism & Heritage Preservation

Project Concept: "Guardians of Egypt" is a nationwide digital marketing initiative created as a capstone project for the Digital Egypt Pioneers Initiative (DEPI). The campaign leverages modern digital tools to promote Egyptian tourism, spotlight overlooked and newly discovered treasures, and foster public awareness regarding antiquities conservation and restoration.

1. Umbrella Campaign Architecture

Core Identity & Sub-Campaign Structure

2. Team Allocation & Role Distribution

Structure for Team of 4 Members

Member 1: Project Lead & Content Strategist

STRATEGY & EDITORIAL DIRECTION

- Overlooks overall campaign alignment across the 3 sub-pillars.
- Develops narrative storylines for "Egypt Uncovered".
- Manages content calendars and copywriting in Meta Business Suite.

Member 2: TikTok & Short-Video Specialist

VIDEO CREATION & VIRAL ENGAGEMENT

- Leads TikTok creative strategy, reels, and video transitions.
- Produces "Before & After" restoration cuts for "Revive Egypt".
- Monitors platform trends, audio clips, and hashtag challenges.

Member 3: Web UI/UX & Interactive Designer

DIGITAL PORTAL ARCHITECTURE

- Designs and builds the interactive campaign website.
- Integrates interactive maps for hidden gems and new discoveries.
- Implements the "Digital Heritage Pledge" widget and user features.

Member 4: Paid Media, Analytics & PPT Lead

PERFORMANCE MARKETING & PRESENTATION

- Executes Meta Ads campaigns (targeting tourists & locals).
- Tracks KPIs across Facebook, Instagram, and web traffic.
- Leads the final DEPI PowerPoint presentation design & defense.

3. Three Pillar Sub-Campaign Strategies

Targeted Content & Messaging Matrix

PILLAR 1

Egypt Uncovered

UNDISCOVERED GEMS

Focus: Off-the-beaten-path locations (e.g., Siwa Salt Lakes, Serabit el-Khadim, White Desert, Marsa Nayzak).

Content Formats:

- IG Carousel "Hidden Location Guides".
- TikTok POV travel teasers.
- Interactive web map pins.

Call to Action: "Explore beyond the Pyramids."

PILLAR 2

Discover Egypt

RECENT DISCOVERIES (5 YRS)

Focus: Major archaeological breakthroughs (GEM, Saqqara Shafts, Luxor Tombs, Avenue of Sphinxes).

Content Formats:

- Facebook educational reels.
- 3D excavation timelines.
- Archaeologist spotlight vlogs.

Call to Action: "Witness history being written today."

PILLAR 3

Revive Egypt

RESTORATION & CARE

Focus: Monument conservation science, public responsibility, and respectful tourism etiquette.

Content Formats:

- "Before & After" restoration cuts.
- Restoration science infographics.
- Digital Heritage Pledge signup.

Call to Action: "Protect the treasures of tomorrow."

4. Multi-Channel Execution Framework

Platform Tooling & Social Strategy

Meta Business Suite (Facebook & Instagram)

- **Unified Scheduling:** Centralized cross-posting calendar for carousels, videos, and stories.
- **Target Audience Segmentation:**
  - *Audience A (Global Travelers):* Interested in history, cultural travel, and UNESCO sites.
  - *Audience B (Locals & Youth):* Educating on monument preservation and local pride.
- **Ad Formats:** Meta Advantage+ lead ads, IG Reels ads, and traffic campaigns leading to the web portal.

TikTok Growth Engine

- **Hook Strategy:** Fast 3-second visual hooks ("Did you know Egypt built this 2 years ago?").
- **Sound & Trend Pairing:** Using trending audio clips overlaid with high-definition restoration close-ups.
- **AR Gamification Filter:** Custom TikTok filter allowing users to "virtually clean" an ancient papyrus or statue using screen brush swipes.
- **Hashtag Strategy:** Branding `#GuardiansOfEgypt`, `#EgyptUncovered`, and `#ReviveEgypt`.

5. Campaign Performance KPIs

Target Metrics Across Channels

Total Social Reach: **2.5M+ Users**	Avg. Engagement: **> 6.8%**	Web Portal Visitors: **100,000+**
TikTok Video Views: **1.2M+ Views**	Heritage Pledges: **25,000 Signings**	Ad CTR (Meta): **> 3.4%**

6. Interactive Web Portal Architecture

Website Design & User Experience Features

Web Hub Concept: guardiansofegypt.org

The web platform serves as the central digital hub unifying all three sub-campaigns into a rich, interactive user experience.

Interactive Site Features

- **3D Explorer Map:** Interactive map where users click pins to view hidden gems (Pillar 1) and new excavation sites (Pillar 2).
- **Virtual Restoration Tool:** Interactive slider showing "Before Restoration" vs. "After Restoration" for key monuments (Pillar 3).
- **Digital Heritage Pledge:** Visitors submit their name to receive a personalized "Guardian of Egypt" digital certificate.

Technical & UX Stack

- **Mobile-First Design:** Optimized for ultra-fast loading from TikTok/IG bio links.
- **Micro-Interactions:** Subtle hover animations, historical soundscapes, and smooth page transitions.
- **Analytics Integration:** Google Analytics 4 (GA4) & Meta Pixel for event tracking and retargeting.

7. PowerPoint Presentation & DEPI Learning Integration

Graduation Defense & Methodology Showcase

Presentation Narrative Structure (PPT Slide Plan)

The final presentation will articulate the strategy, execution, and practical application of DEPI modules:

Presentation Section	Key Content & Slides	DEPI Module Applied
1. Project Vision	Problem statement, campaign goals, target audience personas, and branding identity.	Digital Marketing Fundamentals & Market Research
2. Sub-Campaign Execution	Deep dive into Egypt Uncovered, Discover Egypt, and Revive Egypt social content samples.	Content Marketing, Social Media Strategy & Copywriting
3. Paid Media & Analytics	Meta Business Suite setup, ad budget breakdown, audience targeting, and campaign analytics.	Paid Advertising (Meta Ads) & Performance Analytics
4. Interactive Web Hub	Live demo of the website, user journey mapping, and conversion funnel for heritage pledges.	UI/UX Principles, Web Design & Conversion Optimization
5. Team Roles & Reflective	Role breakdown for all 4 team members, hurdles overcome, and practical takeaways from DEPI initiative.	Project Management, Team Collaboration & Agile Execution

8. Implementation Timeline

4-Phase Execution Roadmap

Phase 1: Setup & Branding (Weeks 1-2)
Brand assets creation, Meta Suite setup, website wireframing, content calendar layout.

Phase 2: Content Teaser & Web Launch (Weeks 3-5)
Publishing Pillar 1 & 2 organic teasers, releasing website, launching TikTok channel.

Phase 3: Ads & Revive Egypt Push (Weeks 6-8)
Scaling Meta Paid Ads, launching "Revive Egypt" pledge campaign and TikTok challenge.

Phase 4: Optimization & PPT Defense (Weeks 9-10)
Analyzing ROI metrics, finalizing GA4 reports, preparing PowerPoint deck and presentation defense.
